CONSULTATIVE CARDIOLOGY • NON-INVASIVE CARDIOVASCULAR PROCEDURES • CARDIAC CATHETERIZATION & ANGIOPLASTY
PERIPHERAL ANGIOGRAPHY & ANGIOPLASTY • ENDOVASCULAR VENOUS LASER ABLATION

For a referral during clinic hours (8:00 am - 5:30 pm, Mon.- Fri.), please call our office at (517) 349-2223 and we will promptly arrange an appointment. For a referral after hours, fax this form and all pertinent records to (517) 349-0828. Have the patient call (517) 349-2223 at 8:00 am and appropriate arrangements will be made. The on call person can be reached at (517) 341-0065 at any time to assist you further.

Please give all patients our instruction sheet and ask they follow the instructions exactly. It is to prepare all patients for any needed studies, including stress testing. Each patient will be assessed and the appropriate study(s) then performed. Patients without insurance need to be aware of the expense they may incur, and may be best served with inpatient management where additional financial assistance is more accessible. We accept most insurance plans; if any questions, please call our office manager, Teresa Bittell at 517-349-3303 (ext. 18)

INSTRUCTIONS TO PATIENTS

If your condition worsens before your appointment at **Same Day HeartCare**, please go to the nearest hospital Emergency Department or call 911.

At **Same Day HeartCare**, you will be evaluated by one of our cardiovascular care providers and appropriate testing will be determined. Some patients may have testing first, if this was arranged when you were referred. Please be aware that the scheduling may vary somewhat and your patience is appreciated. Discuss any of your needs with our staff and we will do all we can to make your visit comfortable. Bring all of your medications and your insurance cards. Any papers you were given by your doctor may be useful to us, so please include them. As the initial evaluation may take up to 3-4 hours, please make appropriate time adjustments for your proper and efficient assessment.

As many patients will require office testing, the following general guidelines will be required:

- No caffeine or caffeine free coffee, soda or chocolate for 12 hrs before testing.
- No food for at least 4 hours before your appointment. Water to drink is fine.
- Wear comfortable clothing. Short sleeves and walking shoes are necessary.
- If you are unable to walk on a treadmill, inform our scheduler so that you may be scheduled for a non-walking chemical stress test. (You will still need to follow all of the other instructions.)
- Hold medications containing Dipyridamole (such as Persantine) or Theophylline (such as Theo-Dur or Uniphyll) for 24 hours prior to the appointment and tests.
- If you use inhalers, please bring them with you.
- For diabetics:
 - 1) Take your oral medications as prescribed.
 - 2) Take % of your usual insulin on the day of your appointment.

Please visit our website at **samedayheartcare.com** and click on the link for map and directions to our office. Call (517) 349-2223 if further assistance is needed.
